

WISCONSIN UNDERWRITING INSPECTION SUPPORT

A clearer picture. From the field.

Northline provides exterior property inspection support, organized photo documentation, measured footprint sketches when ordered, and a careful review of the inspection file.

WHAT WE DO	WHAT YOUR TEAM RECEIVES
Exterior underwriting inspections	Property observations within the agreed assignment scope, with access and visibility limits identified.
Photo documentation	Organized exterior and condition photographs tied to the correct property and order.
Measurements and footprint sketches	Exterior measurements and a building footprint sketch when included in the assignment.
Review and follow-through	Checks for property identity, required evidence, consistency, missing information, and corrections.

Wisconsin now. Illinois expansion planned.

Share your counties or ZIP codes, inspection scope, expected volume, reporting format, and requested timing. Coverage, capacity, pricing, and delivery requirements are confirmed before assignments are accepted.

Northline app: planned to connect inspection intake, representative assignment, field progress, and report handoff. Client app access and integrations are not yet available.

Northline documents property information. Insurers retain underwriting, eligibility, coverage, and premium decisions.
